**CX SERIES Electrification 2WD Rough Terrain Forklift 1.8-3.5 Ton**

**Truck Chassis and Design**

- Proven design is ideal for outside uneven working conditions
- Ergonomic designed operator compartment optimize and enhance operation comfort and control
- Wide view mast delivers excellent visibility and ensures safe operation and productivity
- High ground clearance provides superior manoeuvrability in the rough territories

**Power Training System**

- High voltage power system & PM motor system provides higher working efficiency and less energy consumption
- BMS communicated with traction and hydraulic controller to monitor and govern the battery performance
- Jaw type 100% differential lock delivers ultimate traction on the rough territories
- Highly integrated power system simplifies the high voltage wiring harness and reduce failure rate

**Application**

- IP4X protection ensures working properly in the outdoor environment
- Battery heating system ensures working under low ambient temperature environment
- Wide footprint industrial tyres provide stability in uneven working environments
- A wide range of options allows the vehicle to handle the complexity off-road conditions

**Other Feature and configurations**

- Standard of speed reduction when cornering improves truck stability
- Side charging port contributes less efforts by plug in and out only
- Side battery extraction system ensures continuous harsh working intensity even lack of power charging supply
- Full LED lights provides suitable working environment in the wild area
